

Walk-behind scrubber dryers for efficient large area cleaning

This series of walk-behind units is truly state-of-the-art in scrubber dryer efficiency. Gimbal-mounted brushes provide adjustable pressure to ensure effective cleaning, even on heavily soiled surfaces. The parabolic AccuTrack™ squeegee leaves the floor dry and ready for re-use and brush decks are interchangeable. The one-touch controls reduce operator errors and improve cleaning results and the ergonomics are such that operator fatigue is minimised. The superb performance of the SCRUBTEC 8 machines brings a new dimension to large area floor cleaning. When scrubbing and drying is this efficient, costs are optimised and the benefits become obvious. Reliable and easy to use, this latest innovation from Nilfisk provides added value to professional cleaning.

- Excellent ergonomic design easy to understand control panel with "One Touch" Scrub Control
- Large 85 litre solution/recovery tank provides longer run time between dump and fills
- Patented electronic pulse solution delivery system delivers precise and consistent solution without use of mechanical valves

The SCRUBTEC 8 series of scrubber dryers are suitable for large area cleaning. They offer more versatility, greater productivity, better reliability, advanced ergonomics and are extremely silent.
